IN-HOUSE MACHINERY

Advanced machines for high precision, consistent quality and customized solutions.

01 LASER CUTTING MACHINE

- High precision cutting for accurate dimensions
- Clean edges and minimal material wastage
- Suitable for steel sheets and plates as per design

02 CNC BENDING MACHINE

- CNC bending for accurate angles and uniform finish
- Handles custom racks, panels and metal components
- Consistent quality and high volume production

03 ASSEMBLING & FABRICATION

- Skilled assembly for racks, shelves and storage solutions
- Custom fabrication as per project requirements
- Quality check at every stage

04 POWDER COATING PLANT

- Advanced powder coating plant for durable finish
- Multiple color options and uniform coating
- Corrosion resistant and long-lasting finish
